TRAUMA SURVIVORS NETWORK  
COORDINATOR COURSE  
EDUCATION & IMPLEMENTATION STRATEGIES FOR TRAUMA SURVIVORS NETWORK SERVICES

**nationally recognized patient - centered care**

The American Trauma Society (ATS) and Trauma Survivors Network (TSN) have been recognized as the national leaders in providing support services to trauma survivors and their families; the Trauma Survivors Network Coordinator Course is a comprehensive training program for ATS Institutional Members.

**IDENTIFY**

- 1) The history and purpose of the TSN program.
- 2) The relationship between the TSN and ATS.
- 3) The strategies to encourage stakeholder buy-in, cultivate physician and trauma team champions, and promote and fundraise for the TSN program.
- 4) The importance of partnerships between organizations to further the mission of the TSN.

**UNDERSTAND**

- 1) The benefits of implementing a TSN program.
- 2) The correlation between TSN services and evidence-based research in trauma-informed care for survivors and their support system.
- 3) The best practices to recruit and train trauma survivors and family members to participate as TSN Peer Visitors.
- 4) The importance of incorporating student interns as part of the TSN team.

**DISCUSS**

- 1) The best practices for inpatient and outpatient TSN services.
- 2) The best practices to engage survivors, families, and trauma professionals in National Trauma Survivors Day, Trauma Awareness Month, and other trauma champion events.
- 3) Key concepts to build partnership with local AMPOWER Peer Visitors to help support Peer Visitation Program.
